

Aim and scope

The aim of *JAFM* is to advance the development of fluid mechanics research in the scientific community and to provide an authoritative medium for publication of original articles covering theoretical, computational and experimental research embodying scientific aspects of the mechanics of fluids and their applications. It is to be an online journal free of charge for both authors and researchers in the third world countries.

Subject Areas

JAFM is targeted to a broad community interested in different aspects of fluid dynamics. This community largely consists of scholars in Mechanical, Chemical, Civil, Aerospace, Environmental, Nuclear and Aeronautics and Astronautics Engineering and Metrological Sciences.

JAFM contains regular papers only. It does not accept letters, short papers, news letters nor commercial advertisements. Since *JAFM* is an online journal is to speed up the editorial procedure.

The topics of the journal cover any branch of theoretical, numerical and experimental fluid mechanics, including the following fields: turbulence, instabilities and transition, CFD, aerospace fluid, geophysical fluid dynamics, astrophysical fluid dynamics, gas dynamics, boundary layer flows, environmental fluid mechanics, combustion and reacting flows, hydrodynamics and hydraulics, fluid machinery, bluff-body aerodynamics, multi-phase flows, industrial fluid mechanics, bio-fluid mechanics, flow visualization, flow measurement, flow control, flow induced vibration, heat and mass transfer, magneto hydrodynamics, aeroacoustics and aeroelasticity, porous media flows, swirling flows and micro- and nano-fluid dynamics. The journals topics are not to be considered rigid and the online medium will allow the Journal to evolve and adapt in time.

JAFM subscription

Authors, readers, and visitors wishing to subscribe to the *JAFM* should register by filling in the online registration form. This form can be accessed by clicking [register now](#) at the top of the main page. Further information may be obtained from the *JAFM* secretarial board using the email address: secretary@jafmonline.net.

JAFM is supported by Physical Society of Iran and Isfahan University of Technology. The publisher is: Regional Information Center for Science and Technology.

Executive Editors

Prof. Ali Bidokhti

Inst. of Geophysics, Univ. of Tehran

Dr. Mohamad Farshchi

Sharif University of Technology

Dr. Hassan Khaleghi

Tarbiat Modares University

Dr. Esmaeel Esmaeelzadeh

Tabriz University

Prof. Vahid Esfahanian

University of Tehran

Dr. Hamid Niazmand

Ferdowsi University of Mashhad

Head of Executive Office

Dr. Ahmad Sedaghat

Secretary of JAFM

Maryam Shirani

Journal of Applied Fluid Mechanics

ISSN: 1735-3572 ISSN (online): 1735-3645

Editor-in-Chief

Ebrahim Shirani

Professor of Mechanical Engineering
Isfahan University of Technology
Email: director@jafmonline.net

Associate Editors

Fethi Aloui

University of Nantes, France

Nasser Ashgriz

University of Toronto, Ontario, Canada

Ali Bidokhti

Tehran University, Tehran, Iran

Jean-Marie Buchlin

Von Karman Institute, Belgium

Vahid Esfahanian

Tehran University, Tehran, Iran

Morteza Gharib

California Institute of Technology,
California, USA

Peyman Givi

University of Pittsburgh, PA, USA

Rama Govindarajan

Engineering Mechanics Unit JNCASR,
Jakkur Bangalore, India

Fazle Hussain

University of Houston, TX, USA

Masura Kiya

Kushiro National College of Tech., Japan

Manoochehr Koochesfahani

Michigan State University, MI, USA

Dennis K. McLaughlin

Penn State University, PA, USA

Hui Meng

State University of New York, NY, USA

Roddam Narasimha

National Institute of Adv. Studies, India

Katepalli Sreenivasan

University of Maryland, DC, USA

S. Sivasegaram

University of Peradeniya, Sri Lanka

Lim Tee Tai

National University of Singapore,
Singapore

Stavros Tavoularis

University of Ottawa, Canada

Gretar Tryggvason

Polytechnic Institute, Massachusetts, USA

Patrick Weidman

University of Colorado, Colorado, USA

Jamal S. Yagoobi

Illinois Institute of Technology, Chicago,
Illinois, USA

Heng Zhou

Tianjin University, China
